

Property Management DIVISION

Dear Gary,

Just wanted to thank you for your hard work in getting our condominium leased for us as quickly as you did.

Being 1800 miles away is not easy for a property owner. Your efforts have given us a measure of peace of mind that our property is being managed in a professional manner.

*Regards,
Steve Loeber*

Dear Gary,

I wanted to take a moment to thank you and Julian Properties for an exceptional job in finding us a place to land when we arrived in Orlando. I feel you went above and beyond in helping us to not only secure a perfect location and situation but also in all of your assistance in preparing the unit for our arrival. The service that you provided was truly uncommon and very much appreciated by both myself and my husband. As a first impression for us newbie's to Orlando we could not have asked for a better welcome.

I would recommend you and Julian Properties all day long to anyone looking for either a short, long term rental or permanent home. You guys really are the real deal - first rate.

Hilton Bonnet Creek

I began renting a house through Gary Brach at Julian Properties' property management division on April 15th, 2008. From the time I first contacted Gary about the house, he was extremely courteous, straight forward, and friendly. He returned calls promptly and obtained answers for me about the property in a timely manner, without me having to ask twice. In short, he was on top of the process! Though the house itself is indeed beautiful and is perfect for our family of four, our final decision to rent the house through Julian Properties was also due in part to the professionalism and courtesy Gary had shown us. We felt confident that renting through Julian Properties would be a positive experience, and that, as our property manager, Gary would show us the same courtesy and promptness that he had shown during our search...and he has already proven this to be the case! I would recommend Julian Properties to anyone who is considering using their services!

*Sincerely,
Kim Burke*

"Julian Properties Property Management team found a renter for my property in a flash....not to mention handling all of important details that go along with rental property."
